INDEPENDENT AUDITOR'S REPORT

To the Board of Education of the
Newton Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Newton Community School District, Newton, Iowa as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Newton Community School District at June 30, 2009, and the respective changes in financial position and cash flows, where applicable, for the year ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated December 11, 2009 on our consideration of Newton Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, Budgetary Comparison Information and Schedule of Funding Progress for the Retiree Health Plan on pages 4 through 13 and 36 through 38 are not required parts of the basic financial statements, but are supplementary

information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Newton Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the five years ended June 30, 2008 (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 5, including the accompanying Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments and Non-Profit Organizations, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Newton Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2009. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2009 FINANCIAL HIGHLIGHTS

- General Fund revenues increased from \$26,923,817 in fiscal year 2008 to \$28,177,710 in fiscal year 2009, while General Fund expenditures increased from \$26,585,987 in fiscal 2008 to \$27,827,649 in fiscal 2009.
- The District's General Fund undesignated, unreserved fund balance increased from \$2,382,983 in fiscal 2008 to \$2,730,131 in fiscal 2009.
- The District financial management goals include maintaining a solvency ratio between 5% and 10%. As of the year ended June 30, 2009, the District has a 9.69% solvency ratio.
- Interest earnings in the General Fund alone decreased from \$109,695 in fiscal 2008 to \$28,169 in fiscal 2009 as a result of the overall reduction in market interest rates.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Newton Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Newton Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Newton Community School District acts solely as an agent or custodial for the benefit of those outside of the School District.

Notes to the financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, as well as presenting a schedule of funding progress for the retiree health plan.

Other Supplementary Information provides detailed information about the nonmajor funds. In addition, the Schedule of Expenditures of Federal Awards provides details of various federal programs benefiting the District.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of

Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – are one way to measure the District's financial health or position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business-type activities:* The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has two kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund.

The required financial statements for proprietary funds include a statement of net assets, a statement of revenues, expenses and changes in net assets and a statement of cash flows.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net assets at June 30, 2009 compared to June 30, 2008.

The District's combined net assets increased by 3.37%, or \$786,406 from the prior year. The largest portion of the District's net assets is invested in capital assets (e.g., land, infrastructure, buildings, and equipment), net of related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net assets represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets decreased \$1,347,139, or 23.07% from the prior year. The decrease was primarily a result of the District's decrease in the Special Revenue, Physical Plant and Equipment Levy fund balance.

Unrestricted net assets – the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – increased \$386,901 or 14.63%. This increase in unrestricted net assets was primarily a result of the District's General Fund balance increasing during the year.

Figure A-4 shows the changes in net assets for the year ended June 30, 2009 compared to the year ended June 30, 2008.

In fiscal 2009, property tax and unrestricted state grants account for 75.27% of the revenue from governmental activities while charges for service and operating grants and contributions account for 99.97% of the revenue from business type activities.

The District's total revenues were approximately \$33.94 million of which approximately \$32.48 million was for governmental activities and approximately \$1.46 million was for business type activities.

As shown in Figure A-4, the District as a whole experienced a 3.27% increase in revenues and a 4.47% increase in expenses. Operating grants, contributions and restricted interest increased approximately \$766,502 to fund increases in expenditures. The increase in expenses related to increases in the negotiated salary and benefits as well as increases in expenses funded by grants received by the District.

Governmental Activities

Revenues for governmental activities were \$32,482,099 and expenses were \$31,786,097. In a difficult budget year, the District was able to balance the budget by trimming expenses to match available revenues.

The following table presents the total and net cost of the District's major governmental activities: instruction, support services, non-instructional programs and other expenses, for the year ended June 30, 2009 compared to the year ended June 30, 2008.

For the year ended June 30, 2009:

- The cost financed by users of the District's programs was \$1,036,673.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$4,251,524.
- The net cost of governmental activities was financed with \$9,442,334 in local property tax, \$523,371 in income surtax, \$1,899,682 in statewide sales and services tax, \$15,008,438 in unrestricted state grants, \$107,579 in interest income, and \$212,498 in other revenues.

Business-Type Activities

Revenues for business type activities during the year ended June 30, 2009 were \$1,464,769 representing a 6.02% increase over the prior year, while expenses totaled \$1,374,365, a 4.12% decrease from the prior year. The District's business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

INDIVIDUAL FUND ANALYSIS

As previously noted, the Newton Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported combined fund balances of \$7,257,320, below last year's ending fund balances of \$8,281,041.

Governmental Fund Highlights

- The District's increase in its General Fund financial position from \$2,479,396 in fiscal 2008 to \$2,829,457 in fiscal 2009 is the product of many factors. Revenues increased primarily due to increased state funding, both state aid and teacher quality funding. In addition the District received \$371,556 in American Recovery and Reinvestment Act (ARRA) funds. Revenues exceeded expenditures ensuring the slight increase in the District's financial position.
- The Physical Plant and Equipment Levy Fund balance decreased from \$1,670,868 in fiscal 2008 to \$153,028 in fiscal 2009 due to planned infrastructure expenditures during the year. The District follows a five-year capital improvement plan that is reviewed annually.

- The Capital Projects Fund balance decreased from \$1,655,152 to \$1,550,793 primarily due to lower interest rates.
- The Debt Service Fund balance increased from \$1,787,730 to \$1,826,828. Included in the fund balance at year end is a required reserve of \$865,000 as part of the issuance of the sales tax revenue bonds.
- The Management Fund balance increased from \$438,907 to \$682,304. The Management Fund expenditures include early retirement benefits, property and liability insurance coverages, worker's compensation insurance and unemployment benefits.
- The Student Activity Fund balance decreased from \$248,988 to \$214,910 due to the variance of student activities from year to year.

Proprietary Fund Highlights

The Proprietary Fund net assets increased from \$134,458 at June 30, 2008 to \$224,862 at June 30, 2009, representing an increase of 68.97%. This increase was due primarily to the increase in federal revenues and decrease in expenditures from the prior year.

BUDGETARY HIGHLIGHTS

Over the course of the year, Newton Community School District amended its annual budget one time to reflect additional expenditures associated with the completion of the driveway project.

The District's revenues were \$731,122 less than budgeted revenues, a variance of 2.11%. The most significant variance resulted from the District receiving less in local source revenues than originally anticipated. State aid was reduced by 1.5% in fiscal year 09.

Total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2009, the District had invested \$31.83 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This amount represents a net increase of 0.01% from last year. More detailed information about capital assets is available in Note 4 to the financial statements. Depreciation expense for the year was \$1,412,943.

The original cost of the District's capital assets was \$59,041,579. Governmental funds account for \$58,479,406 with the remainder of \$562,173 in the Proprietary, School Nutrition Fund.

The largest percentage change in capital asset activity during the year occurred in the construction in progress category. The District's construction in progress totaled \$400,497 at June 30, 2008, compared to \$0 reported at June 30, 2009. This decrease resulted from the completion of the driveway project at Thomas Jefferson Elementary.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of existing circumstances that could affect its financial health in the future:

- The District's certified enrollment decreased by 59.3 students in the fall of 2008 to 3,267.2. Under Iowa's school funding formula, the district's funding is highly dependent upon the student enrollment and future enrollment stability is critical. Additionally, the October 1, 2009 certified enrollment decreased to 3,202.2.
- The 2008-09 regular program district cost (RPDC) was \$5,546, a 4% increase from 2007-2008 of \$5,333. The 2009-10 RPDC is \$5,768, a 2% increase.

- In addition to the national economic recession, the Newton Community continues to experience an economic transition with the closing of the Maytag/Whirlpool Company. Specific concerns of the loss of student enrollment, employment and property tax valuation are areas deserving close monitoring.
- The \$70 million Iowa Speedway project was completed and operational for the 2007 season. Projections of increased School Infrastructure Local Option Sales and Services (SILO) tax revenues were realized. From the period of February 2004 through June 2007, the District has received \$5,752,825 in SILO revenue.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives.  YEAR ENDED JUNE 30, 2009

Net change in fund balances - total governmental funds (page 18) \$ (1,023,721)

*Amounts reported for governmental activities in the
 Statement of Activities are different because:*

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Depreciation expense, capital outlay expenditures and loss on disposal of capital assets in the current year are as follows:

Expenditures for capital assets	\$ 1,411,318	
Depreciation expense	(1,396,965)	
Loss on disposal of capital assets	<u>(7,921)</u>	6,432

Income surtax accounts receivable is not available to finance expenditures of the current year period in the governmental funds. 24,475

Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. 1,745,000

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. 56,648

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Early retirement	\$ 15,169	
Compensated absences	(3,327)

NEWTON COMMUNITY SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS

JUNE 30, 2009

(1) Summary of Significant Accounting Policies

The Newton Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the Cities of Newton and Kellogg, Iowa, and the predominate agricultural territory in Jasper County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Newton Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The Newton Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Jasper County Assessors' Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

The Debt Service Fund is utilized to account for the payment of interest and principal on the District's general long-term debt.

The District reports the following nonmajor proprietary fund:

The District's proprietary fund is the Enterprise, School Nutrition Fund. The School Nutrition Fund is used to account for the food service operations of the District.

C. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

The proprietary fund of the District applies all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for

Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Balances

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable - Property tax in governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2007 assessed property valuations; is for the tax accrual period July 1, 2008 through June 30, 2009 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2008.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets - Capital assets, which include property, machinery and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 500
Buildings	500
Land improvements	500
Machinery and equipment:	
School Nutrition Fund equipment	500
Other machinery and equipment	500

Capital assets are depreciated using the straight line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives (In Years)
Buildings	50 years
Land improvements	20 years
Machinery and equipment:	5-12 years

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds as well as property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences - District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death, or retirement. A liability is recorded when incurred in the government-wide financial statements. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2009. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Equity - In the governmental fund financial statements, reservations of fund balance are reported for amounts not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Restricted Net Assets - In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgeting and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

(2) **Cash and Pooled Investments**

The District's deposits at June 30, 2009 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2009, the District had investments in the Iowa Schools Joint Investment Trust as follows:

	<u>Amortized Cost</u>
Diversified Portfolio	<u>\$ 5,203,008</u>

The investments are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit risk. The investments in the Iowa Schools Joint Investment Trust were rated Aaa by Moody's Investors Service.

(3) Transfers

The detail of transfers for the year ended June 30, 2009 is as follows:

The District has pledged future local option (statewide) sales and services tax revenues to repay the \$8,650,000 bonds issued in February 2004. The bonds were issued for the purpose of defraying a portion of the cost of school infrastructure. The bonds are payable solely from the proceeds of the local option (statewide) sales and services tax revenues received by the District and are payable through 2014. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds required 57.26% of the local option (statewide) sales and services tax revenues. The total principal and interest remaining to be paid on the notes is \$5,127,456. For the current year, principal and interest paid on the bonds was \$998,282 and local option sales and services tax revenues were \$1,899,682.

The resolution providing for the issuance of the local option sales and services tax revenue bonds includes the following provisions:

- a) \$865,000 of the proceeds from the issuance of the revenue bonds shall be deposited to the reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. The balance of the proceeds shall be deposited to the project account.
- b) All proceeds from the local option sales and services tax shall be placed in a revenue account.
- c) Monies in the revenue account shall be disbursed to make deposits into a sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the revenue account after the required transfer to the sinking account may be transferred to the project account to be used for any lawful purpose.

Early Retirement

The District offers a voluntary early retirement plan to its certified employees and administration. Eligible employees must be at least age fifty-five and employees must have completed ten years of continuous service to the District. Employees must complete an application which is required to be approved by the Board of Education. The early retirement incentive for each employee's base salary, depending on the individual's classification, calculated by using the current year salary schedule, less any other additional pay. In addition, a portion of unused sick leave is included in the early retirement stipend. Early retirement benefits expensed during the year ended June 30, 2009 totaled \$176,262.

(6) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.10% of their annual covered salary and the District is required to contribute 6.35% of annual covered salary for the years ended June 30, 2009, 2008 and 2007. Contribution requirements are established by State statute. The District's contribution to IPERS for the years ended June 30, 2009, 2008 and 2007 were \$1,180,121, \$1,075,240 and \$1,001,970 respectively, equal to the required contributions for each year.

(7) Other Postemployment Benefits (OPEB)

The District implemented GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits other Than Pensions during the year ended June 30, 2009.

Plan Description - The District operates a single-employer retiree benefit plan which provides medical, prescription drug and dental benefits for retirees and their spouses. There are 318 active and 32 retired members in the plan. Participants must be age 55 or older at retirement.

The medical, prescription drug, and dental coverage is provided through a fully insured plan with ISEBA. Retirees under age 65 pay the same premium for the medical, prescription drug, and dental benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2009, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$ 266,000
Interest on net OPEB obligation	0
Adjustment to annual required contribution	0
Annual OPEB cost	266,000
Contributions made	(139,000)
Increase in net OPEB obligation	127,000
Net OPEB obligation beginning of year	0
Net OPEB obligation end of year	<u>\$ 127,000</u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2009.

For the year ended June 30, 2009, the District contributed \$139,000 to the medical and dental plan. Plan members eligible for benefits contributed \$196,000, or 58.5% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2009 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2009	\$ 266,000	52.3%	\$ 127,000

Funded Status and Funding Progress - As of July 1, 2008, the most recent actuarial valuation date for the period July 1, 2008 through June 30, 2009, the actuarial accrued liability was \$2.124 million, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$2.124 million. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$18,965,687 and the ratio of the UAAL to covered payroll was 11.20%. As of June 30, 2009, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to the Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of July 1, 2008 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumptions includes a 5% discount rate based on the District's funding policy. The projected annual medical trend rate is 11%. The ultimate medical trend rate is 6%. The medical trend rate is reduced 0.5% each year until reaching the 6% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2007 and applying termination factors used in the IPERS Actuarial Report as of June 30, 2007.

Projected claim costs of the medical plan are \$669 per month for retirees less than age 65. The salary increase rate was assumed to be 4% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(8) Risk Management

The District is a member in the Iowa School Employees Benefits Association (ISEBA), and Iowa Code Chapter 28E organization. ISEBA is a local government risk-sharing pool whose members include various schools throughout the State of Iowa. The

Association was formed July 1999 for the purpose of managing and funding employee benefits. The Association provides coverage and protection in the following categories: medical, dental, disability and life insurance. District contributions to ISEBA for the year ended June 30, 2009 were \$2,514,198.

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(9) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$1,149,159 for the year ended June 30, 2009 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2009

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year ended June 30, 2009, the District adopted one budget amendment increasing total expenditures by \$573,662.

Independent Auditor's Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards

To the Board of Education of the
Newton Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Newton Community School District as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated December 11, 2009. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Newton Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of Newton Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Newton Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the internal control over financial reporting that might be significant deficiencies or material weaknesses. We identified no deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

Compliance and Other Matters

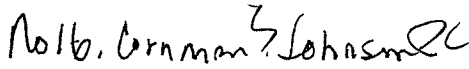

As part of obtaining reasonable assurance about whether Newton Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of noncompliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2009 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on test and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Newton Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Newton Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Newton Community School District and other parties to whom Newton Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Newton Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Independent Auditor's Report on Compliance with Requirements Applicable
to Each Major Program and Internal Control over Compliance
in Accordance with OMB Circular A-133

To the Board of Education of
Newton Community School District

Compliance

We have audited the compliance of Newton Community School District with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2009. Newton Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grant agreements applicable to each of its major federal programs is the responsibility of Newton Community School District's management. Our responsibility is to express an opinion on Newton Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Newton Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Newton Community School District's compliance with those requirements.

In our opinion, Newton Community School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The management of Newton Community School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered Newton Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Newton Community School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the District's internal control that might be significant deficiencies or material weaknesses as defined below. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined below.

A control deficiency in the District's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies that results in more than a remote likelihood material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the District's internal control.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Newton Community School District and other parties to whom Newton Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

Part IV: Other Findings Related to Required Statutory Reporting:

IV-A-09 Certified Budget - District expenditures/expenses for the year ended June 30, 2009, did not exceed the amount budgeted.

IV-B-09 Questionable Disbursements - We noted no disbursements that may not meet the requirements for public purpose as defined in an Attorney General's opinion dated April 25, 1979.

IV-C-09 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-09 Business Transactions - Business transactions between the District and District officials or employees are detailed as follows:

Name, Title and Business Connection	Transaction Description	Amount
Arthur Ergenbright, Paraprofessional Owner of Ergenbright Sports Apparel	Sports apparel	\$12,121

In accordance with the Attorney General's opinion dated July 2, 1990, the above transactions with the District's paraprofessional do not appear to represent a conflict of interest.

IV-E-09 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

IV-F-09 Board Minutes - We noted no transactions requiring Board approval which have not been approved by the Board.

IV-G-09 Certified Enrollment - We noted that the number of basic resident students reported to the Iowa Department of Education on line 1 of the Certified Enrollment Certification Form for October 2008 was understated by 0.3 students. The District forgot to count one Home School Assistance student.

Recommendation - The District should contact the Iowa Department of Education and the Department of Management to resolve this matter.

Response - The District has contacted the Department of Education and the Department of Management to correct the October 2008 certified enrollment.

Conclusion - Response accepted.

IV-H-09 Deposits and Investments - We noted no instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.

IV-I-09 Certified Annual Report - The Certified Annual Report was filed with the Department of Education timely and we noted no significant deficiencies in the amounts reported.

IV-J-09 Categorical Funding - No instances were noted of categorical funding used to supplant rather than supplement other funds.

IV-K-09 Statewide Sales and Services Tax - No instances of non-compliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax. For the year ended June 30, 2009, the District's financial activity and other required information for the statewide sales and services tax are as follows:

Beginning Balance		\$	0
Statewide sales and services tax revenue			1,899,682
Expenditures/transfers out:			
Debt service for school infrastructure:			
General obligation debt	\$	900,168	
Revenue debt		999,514	1,899,682
Ending balance		\$	0

Levies reduced as a result of statewide sales and services tax received:

	Per \$1000 of Taxable Valuation	Property Tax Dollars
Debt service levy	\$ 1.46393	\$ 900,168

IV-L-09 Student Activity Fund - During our audit issues arose about the properness of certain receipts/expenditures paid from the Student Activity Fund. Inappropriate expenditures would include any expenditure more appropriate to other funds. The student activity fund shall not be used as a clearing account for any other fund. This is not an appropriate fund to use for public tax funds, trust funds, state and federal grants or aids, textbook/library book fines, fees, rents, or sales, textbook/library book purchases, sales of school supplies, curricular activities, or any other revenues or expenditures more properly included in another fund. Moneys in this fund shall be used to support only the cocurricular program defined in Department of Education administrative rules (298A.8). Fundraisers and donations made to the school should be recorded in the fund in which they could be expended from.

Recommendation - The purpose of the Student Activity Fund is to account for financial transactions related to the cocurricular and extracurricular activities offered as a part of the education program for the students established under Iowa Administrative Code 281-12.6(1). The District should review the propriety of receipts and expenditures that are recorded in the Student Activity Fund. It would appear that some of the accounts appear to be more administratively maintained in nature, rather than maintained by a club or organization. More specific examples of these instances of questioned items and recommendations are as follows:

We noted that there were parking violation fees receipted in the High School Activity account. These revenues do not appear to be extracurricular or co-curricular in nature and should be receipted into the General Fund.

Response - The parking violation fees are now being receipted into the General Fund.

Conclusion - Response accepted.
